

Calling potential Citizens Advice Trustees in South Lincolnshire

Citizens Advice South Lincolnshire (CASL) is seeking two new trustees to strengthen the current team of nine. We are particularly interested in recruiting people with experience and skills in equality and diversity, GDPR, health and well-being, marketing, fundraising, local government and/or the charity sector. We are also seeking a trustee to take on the role of Vice Chair, supporting and deputising for the Chair, and possibly providing for succession in the longer term.

These are unpaid roles, offering Board experience and outstanding job satisfaction. Trustees are also non-executive directors of CASL. We are equally interested in talking to candidates with long-term, wide-ranging experience and to those with current knowledge in specialist areas.

The minimum time commitment is five Board meetings and five committee meetings each year. Most trustees also take on an additional leadership role within CASL. The expectation is that trustees will serve at least two years.

CASL performs well in the current challenging environment, with sound governance and strong finances. It is one of over 250 local charities that make up the national Citizens Advice network, giving advice to those in need, and lobbying government to put right injustices. It operates across a large region from Spalding to Stamford, Grantham, Bourne and Market Deeping.

To arrange an informal telephone discussion, please contact the Chair, John Morden at chair@citizensadvicesouthlincs.org.uk.
